Using Cisco AnyConnect VPN

1) In your start menu you will find the AnyConnect client at Start>Cisco>Cisco AnyConnect Secure Mobility Client>Cisco AnyConnect Secure Mobility Client. Single click to open the application.

2) A window will pop up on your screen that looks like the picture below. The pull-down box should be pre-filled with “NCAR VPN(CISL). If it is not, please send in a help ticket to cislhelp@ucar.edu. If the pull-down box is correct, choose “Connect”
3) Next a connection window will open. Fill in your username. Then fill in your password using your One Time Password (OTP) from your cryptocard or using your yubikey.

4) Once connected, a window will pop up asking you to accept the terms of privacy communication. Click accept and you will be connected.
5) In order to disconnect from the Cisco AnyConnect VPN client, in your task tray near your system clock there will be an icon that looks like this:

You will want to right click on it and choose “Disconnect”.
