→ Adapters: Mini-Display-to-DVI, Mini-Display-to-VGA, Apple Thunderbolt to Gigabit Ethernet Adapter
→ Approximate size and weight: 0.71x14.13x9.73 inches and 4.49 pounds
Monitors

If a monitor is needed, CISL central pool will pay for the cost of one or two Dell 24" Monitors or one 27" Dell or Apple Monitor for the primary computer. After that, section must contribute the difference from the cost of the Dell 27".

Dell UltraSharp U2412M 24" Monitor with LED

Great performance, no matter how you look at it

Enjoy widescreen performance, any way you want it. With a 24" 16:10 panel, IPS technology and LED backlight, the U2412M provides a brilliant view, plus amazing adjustability to suit any style.

- Powerful: Experience IPS technology, featuring a wide viewing angle with high-quality color representation for a peerless viewing experience.
- Flexible: Pick the view that works best for you with an almost unlimited range of tilt, swivel, pivot and height adjustments.
- Customizable: Change your energy usage settings, text brightness and color temperature with the touch of a button to help conserve energy with this eco-designed arsenic-free and mercury-free panel.

Max Resolution: 1920X1200

Dell UltraSharp 27 PremierColor Monitor - U2713H

Your color-critical work deserves stunning color performance.

Experience the latest technology with the Dell™ UltraSharp U2713H 27" high-performance monitor for consistent colors right out of the box.

- Remarkable screen clarity: Experience stunning high-definition details and the ability to view more onscreen content with the WQHD, 2560 x 1440 resolution and a 120% color gamut.¹
- Stunning color precision and performance: U2713H with PremierColor comes factory color calibrated to support 99% AdobeRGB which enables brilliant and accurate color hues and saturation. Six-axis color control enables further user customization, professional color critical work.
- Superb user experience: Convenience is at your fingertips with multiple connectivity ports, including USB 3.0, DisplayPort 1.2, mini-DisplayPort, DVI-DL (HDCP) and HDMI.²

Max Resolution: 2560X1440
Apple Thunderbolt Display (27-inch)

With built-in Thunderbolt technology — the fastest, most flexible I/O ever — the new Apple Thunderbolt Display can do things other displays simply can't. Of course, it delivers a brilliant viewing experience. But connect it to any Thunderbolt-enabled Mac and it becomes a plug-and-play hub for everything you do. Features include a high-resolution 2560-by-1440 LED-backlit display, a FaceTime HD camera, high-quality audio, three USB 2.0 ports, a FireWire 800 port, a Gigabit Ethernet port, and a Thunderbolt port for daisy-chaining additional high-performance devices.

Max resolution 2560x1440

Optional Monitors Available

Dell UltraSharp 30 PremierColor Monitor - U3014

Outstanding clarity and colors for graphics-intensive environments.

Create precision work with the high-performance 30" Dell™ UltraSharp U3014 monitor offering wide-ranging flexibility, efficiency and factory calibration.

- Performance: The Dell UltraSharp U3014 is factory calibrated to offer precise, accurate colors.
- Flexibility: Mount it on your desktop with a height-adjustable stand that tilts and swivels or save desk space with a wall-mount configuration or optional monitor arm.
- Efficiency: The Dell UltraSharp U3014 is energy efficient and meets many of the latest energy certifications.

Max Resolution: 2560X1600
